September 6, 1968 - Swaziland gained its independence from the United Kingdom

SAT Question of the Week:

Rejecting the premise that the literary magazine *Ebony and Topaz* (1927) should present a unified vision of Black American identity, editor Charles S. Johnson fostered his contributors' diverse perspectives by promoting their authorial autonomy. Johnson's self-effacement diverged from the editorial stances of W.E.B. Du Bois and Alain Locke, whose decisions for their publications were more _____.

Wellbeing Tips:

Fitness Tip: As you get back into a school/sports routine, focus on staying consistent with workouts rather than trying to do everything at once.

Nutrition Tip: Build meals around a high-quality protein source and fiber-rich whole foods first, then use carbs and fats strategically based on your energy needs and activity level.

Financial Tip: The most powerful financial advantage is keeping your fixed expenses low while automatically directing a percentage of every dollar you earn toward savings and long-term investments.

Technology Tip: Don't chase every new tool. Master a small, interoperable stack and learn how to make the tools exchange data, trigger actions, and compound your output.

Environmental Facts/Tips: Did You Know?

If food waste were a country, it would be the world's third-largest emitter of greenhouse gases. Food rotting in landfills releases methane, a gas that traps roughly 30 times more heat than carbon dioxide. Planning meals to only buy what you need can help shrink your carbon footprint.
